

Dear Friends,

Meadow Hill works with families across the span of their pets' lives. On the one hand, we create keepsakes that let you celebrate the fun and vitality of your pet; on the other hand, our products help you anticipate the loss of an aging or ailing pet. We also work with veterinarians and funeral, cremation, and cemetery services that deal with your pet's end of life.

What matters most to me—to all of us at Meadow Hill—is that you are 100% satisfied with your Buddies keepsakes. This guarantee includes the metal, workmanship, engraving, and our customer service. We appreciate your consideration of our products and hope their touch fills you with the same love you experienced with your best buddy at your side.

Buddies®

BELOVED PET KEEPSAKES

Our best buddies...

Only a touch away

A “buddie” you’ll always have with you...

Pets have an uncanny way of working themselves into our hearts. These four-legged family members make us laugh and provide comfort and protection. They make few demands and never judge. Our best buddies just love us!

Now, Meadow Hill’s **Buddies Beloved Pet Keepsakes** remind us of that love wherever we go.

Buddies start as two-dimensional ink prints of the paw, or nose. (We can work with clay or resin molds and close-up digital photographs as well.) Meadow Hill scans your print, creates a wax model of it, giving it a third dimension. Then our artisans use the time-honored method called lost wax casting to make each unique piece. Hand polished, your keepsake is finished with the engraving of your choice. Additional pieces of the same print can be ordered at any point in time.

Buddies keepsakes invite touch. The simple stroking of the charm makes you smile when you are away from your pet. It also brings comfort and a way to remember the buddy who is no longer with you.

*A special way to always remember
Your Best Buddie.*

Meadow Hill’s keepsakes bring you the touch of your favorite “Buddies”.

Creating Keepsakes

Living Pets

For the living pets in your household, the process begins with selecting a keepsake from the many options in this booklet or on our web site at www.meadowhillco.com.

Aging or Deceased Pets

If your pet is nearing the end of life, or has just passed, now is the time to capture a paw, nose or other print.

Service Providers

Meadow Hill works with a number of professional service providers who can help you capture the prints. These people include your local veterinarian, funeral home, pet cremation service or pet cemetery. They capture the print for you and take care of ordering your selections.

Print Sources

Meadow Hill can also work with prints from a variety of other sources, such as clay, plaster or resin molds of prints and close-up digital photographs.

Meadow Hill stores every print used in creating your keepsake in a secure electronic file. This allows you to create additional pieces at any time in the future.

Face Styles

About the size of a dime, Standard Buddies charms come in various face styles including a pawprint, a noseprint and a broad category called "OTHER" (e.g. horse hoofs, bird talons, hamster claws, etc.)

Pawprint

Hoofprint

Noseprint

Meadow Hill can work with a variety of animal prints.

Ink Kit Instructions

Step 1. Move the ink pad to the animal, gently tapping on the paw or nose (if allowed) two to three times.

Gently tap the paw two to three times with ink pad.

Step 2. Place a scrap piece of paper on a firm surface and bring it to the inked paw or nose and gently touch it. Repeat this process until you are satisfied with the look of the practice prints. Now re-ink the paw or nose and create fresh prints on the order card or a clean index card.

Practice first on scrap paper until you are satisfied with the print.

Simply staple the better prints to the order card. Meadow Hill's artisans will select the best one for casting and will "clean up" unwanted hair lines around the pads.

After re-inking create a fresh print on the index card

Use this same technique for capturing a noseprint. The ink is vegetable-based and will not harm your pet. An alternative to an ink print is a close-up digital photograph of your pet's paw. Unfortunately, a digital photograph of the nose does not produce the quality that is required.

For Her...

A woman's jewelry holds layers of meaning. Beyond the obvious decorative value, her favorite pieces often speak of connections with things that bring routine to her busy life, like the imprint of the dog's nose on the patio sliding door. How many times has she washed it off this week?
